

# Database Structure

The database is a Postgres database hosted by Supabase. It is structured as follows:

Some important things to note are:

- startTime is represented as follows: Monday 12:00am is 0, Monday 12:30am is 1, ..., Tuesday 12:00am is 48, ..., Friday 11:30pm is 239.
- duration is in 30 minutes.

There are also several other databases managed by Supabase for purposes such as user authentication and security logs. These are independent of the main database. For more information see: [Database | Supabase Docs](#) .
